ESCRS in London UK.

WorkingExperience:

Started sub-specialty in Corneal diseases at Makka Eye Hospital. In my sub-specialty I am doing Corneal Transplant surgery(Keratoplasty)

I did 30 cases. Also I have good experience in Amniotic Membrane Transplant surgery doing multilayered & single layer surgery. Recently I started doing Scleral Tectonic Grafts, for cases of perforated corneal ulcers. I also have good experience in performing Corneal Crosslinking (ultraviolet Laser) for stabilization of the cornea in cases of Keratoconus.

In my clinic I am treating all types of corneal infections & ulcers doing corneal scraping for staining and for culture & sensitivity.

• **HOBBIES:**

Reading, Sewing and cooking.
