

Personal Information

Name: Intesar Salih Alkhedir A. Alraheem

Place of Birth: Khartoum north –Khartoum

Date of Birth: 1/1/1991

Address: Khartoum north –East Nile

Home number: 0129267024

Mobile number: 0990758979

E-mail: intesar.salih@yahoo.com

Education Information

Bachelor of Science from university of Khartoum, faculty of science with first class.

Department of zoology

Specification in Molecular Biology.

Date of graduation: 19/11/2013.

Fifth year rate: 8.4.

CPGA: 8.08.

The secondary level:

Abu baker altayeb Mustafa high model secondary school for girl

Date of graduation: 10/4/2008.

Skills and Qualification

- Computer skills.

- English skills.
- Some statistical analysis
- Standard method of molecular biology techniques (ELISA, DNA extraction etc
- Proficient in PCR
- High interest in phylogenetic relationship (**graduated project study phylogenetic relationship of *Ceratus ceratus* a species of snake in Sudan using other reptiles species as out group for comparison**)
- Teaching assistant in university of Khartoum –faculty of medicine from October 2013 up to now in general biological concept and classification course.
- Teaching assistant (as training) in university of Bahri from 1/1/2014 to 1/2/2014 in basic biological science.
- Teaching assistant in university of Bahri faculty of medicine from April to August 2015 on comparative anatomy and molecular biology courses .
- Teaching assistant in university of Khartoum –faculty of science from September 2013 up to now in basic of genetics course in laboratory.
- A national servicer in university of Khartoum –faculty of science from February 2014 to February 2015 in molecular biology and physiology lab.
- Currently I work in a scientific paper about phylogenetic relationship of *Ceratus ceratus* a species of snake in Sudan using other reptiles species as out group for comparison the work is not published yet.
- **Current situation** Teaching assistant at university of Khartoum, Sudan national history museum
