• Principal subjects/occupational skills covered	Architecture, During my degree I successfully combined my studies with other commitments showing myself to be self-motivated, organised and capable of working under pressure.
• Title of qualification awarded	Master of Architecture in Theory and Design
Final mark obtained	61 (merit) (40-70+)

GRADUATION THESIS

Title	City resident's perception on the benefits of introducing nature elements in dense cities enhancing place Gestalt and atmospheric Genius loci
Language	English
Supervisor	Dr. Patrizia Reganti
Thesis Summary	Friendship between man-kind and nature is taken as what draw the Art of place in this research. As Christian Norberg-schulz (2000) argues that the Art of place is the art to establish above all a relationship of "friendship" between the given environment and the mankind. in additional to, describes it as the experience of living and here appear the concept of the "World of life", "Place Gestalt", which are used to describe the place and the settings we found our self within. It Addresses the concept of the possibility to Socially vitalizing role of nature to be brought back to our urban lives to re -nurture a sense of our human instinct and bring us closer to the ignored

	<p>'other' - animal, plant or stranger "a city for all species".</p> <p>This Study aims to observe and put hands on the way city residents think of the best interaction between both nature and manmade elements , and how they can elucidate their dreams city and preferred setting, which we originally assumed that settings (Gestalt) and experience (World of life)to trace people memories and draw cities imaginability in people's minds. This research hypothesized that the best way to empower the places identities and sustain the planet healthy for all of us is by designing in respect to the heritage of the place, whether it is natural characteristics or its artifacts.</p> <p>The study handled through literature review and personal interviews with the residents of Nottingham city, so that we can evaluate how they feel, consider and appreciate the presence of the natural elements in their life, and how these elements can shape their way of living or improve their well –being and quality of life. This evaluation developed in three levels, firstly through their living habits and relation to nature, secondly in association to the public gardens and their appraisal, activities and supposed activities to take place. Finally establishing an evaluation to Nottingham city and carryout a comparison between Nottingham city, Granada city and the participants dream city. The observation and interviews explained, humanbeing- nature relationship as a question of How people feels themselves in natural contexts, as part of it or apart from it.</p>

• Name and type of organisation providing education and training	The university of Khartoum
Duration of the program of study	Five Years
• Principal subjects/occupational skills covered	Architecture
• Title of qualification awarded	Bachelor of Sciences in Architecture
Final mark obtained	80 (First class) (50-80+)

GRADUATION THESIS

Title	Design Project of transportation hub in Wadi-halfa, Sudan
Language	English
Supervisor	Dr. Alwaleed Abdalaziz
Thesis Summary	<p>Design for a transportation hub in Wadi-halfa, includes three modes of transportations; ferry, train and buses. The idea is to transport people between different states of Sudan and south Egypt "Aswan" and to exchange with different transportation modes.</p> <p>The site location was align to the river Nile to serve with the ferry station which ship travellers from- to Aswan-halfa .furthermore convey people between the train station and bus station.</p> <p>The design was consist of great hall to merge and exchange departures and arrivals of different stations. Also the ferry station has departure and arrival halls. Beside the amenities of shopping area, restaurants and hotel rooms, parking facilities and outdoor landscape.</p> <p>The form was illustrated from the natural lines (straight and curved) to create different character for each station merging in central core of the main hall.</p>
