1. During my post-graduate studies I voluntarily attended several courses from other faculties in order to improve my abilities in the development oriented working field. Alongside academic writing course at Technical University of Dresden, Institute of Advanced Studies as profession academic writing course pursued my interest in research and scientific writing.

2. Supplementary to my professional activities I followed my artistic gifts in writing, being the author of more than 16 published and unpublished articles addressing forestry and rural development, non timber forest products value chain analysis, livelihoods, energy and climate change in Sudan.
